

**CMAA National "Building Under \$10M" Award 2007**

The team of Parsons, Totum, City of Long Beach, Swinerton Builders and CWA architects received the honor of the 2007 CMAA award for the \$8.3M new Mark Twain library for the City of Long Beach.

Submitted to be LEED Gold and the first new library in Long Beach for over 30 years, the 16,100 sq ft  
Library receives over 10,000 visitors per week!

The project, completed well ahead of schedule and less than 2% in change orders – for a public works project,  
was an extra-ordinary team effort of collaboration and a real partnership approach.

We are proud to have been part of this project.
