

Membership Report – Fall 2007

We ended the year with a new high of over 700 members!!! There are nearly 200 member organizations represented by our chapter including 16% representation from Owner Organizations and nearly 8% from Associate Member Organizations including architectural, testing and inspection, legal professionals and other related industry consultants. Due to our educational programs and dinner networking events we have successfully captured 30% of non-member attendees to our events as new members this past year. Below is a listing of new members added from June 2007 through August 2007.
