

Education Committee Update

A new Education Committee has been formed in the Southern California Chapter this year. The mission of the committee is to focus on improving the quality and relevance of the seminar offerings from the chapter as well as improving owner outreach/participation and offering project site visit opportunities. The committee has established a strong agenda of seminar offerings for 2010 including the following topics:

- a. Alternative Project Delivery Methods
- b. Construction Inspection
- c. What Owners Want From a CM
- d. Managing Green
- e. Project Tours
- f. Community Relations
- g. BIM/IPD
- h. Alternative Project Delivery Methods (Vertical) – *Date confirmed 10/14/10*
- i. Public Private Partnerships (3P)

The first seminar listed above was just presented on January 21, 2010 with a panel that included Owner/Agency representatives from OCTA, LAWA, UCI, Metro, and LACCD; it was a very informative session. The committee is working with many volunteer presenters, moderators, and panelists to further develop and refine the above topics, and we welcome suggestions for new topics that we can consider for future offerings. Keep an eye on your in-box for further details on these seminars as they are released over the next year!

Bruce P. Risley
Education Committee Co-Chair
