

## Greetings from the CCM Committee!

### **Certified Construction Manager Standards of Practice Course**

The CM Standards of Practice Review Course (CMSPRC) is designed for an advanced group of CM's preparing for their CCM exam, and contains eight (8) instructional modules delivered over three (3) consecutive days. Content is derived from the Construction Management Core Competencies and the CMAA Body of Knowledge. The next month will be a busy one, as we complete the second course in our three part series. This CMSPRC is scheduled for Friday, July 18, 2008 at The Grand in Long Beach. The morning session, Time Management, will be led by Arash Abbasian, PMP, CCM, PSP who is a Project Director for Vanir Construction Management, Inc. The afternoon session will be on Quality Management (instructor to be announced shortly). Watch your e-mail for more information from the Chapter.

### **CCM Application Workshop**

We are also pleased to announce a CCM Application Workshop, currently scheduled to be held prior to our dinner meeting on July 31, 2008 at the Irvine Marriott. If you've looked at the application process and found it daunting, this Workshop is for you. This is your opportunity to meet Certified Construction Managers who have been through the process and are willing to help you make through as well. They can, and will, help you answer those plaguing questions that have been holding up your progress in completing the application.

This 90 minutes workshop will include some discussion of the application and what's required to complete it. The workshop is primarily provided for you to bring your draft application, ask your questions and get the direction you need in providing the right answers. We are also looking forward to assisting those of you who have not started your application and need clarification. If you have not started the application process, please print out the application from the web, [www.cmaanet.org](http://www.cmaanet.org), before coming to the workshop. We look forward to seeing you there!

Visit our website for details on registration for both events at [www.cmaasc.org](http://www.cmaasc.org).
