CCM Standards of Practice Course this Fall – Session Host Needed

Your Southern California CMAA Chapter wants to help you get your Certified Construction Manager Certification, and we are working with CMAA National to provide another CCM Standards of Practice Course in November or December. We are looking for firms who are willing to host a session for the members of the chapter, and who are willing to provide room for the review sessions. CMAA National has committed to providing the CCM examination within one week of the review session we establish.

If you are currently a Certified Construction Manager, and are interested in providing the instruction for any portion of the CCM Standards of Practice Exam, please contact our CCM Chairman, Brett Barnett, PE, CCM.
