

## Membership Report

The CMAA So. Cal. Chapter hopes you had a wonderful New Year beginnings. Our membership group volunteers are made up of the following individuals. Natasha DeBenon, of Hill International is the Membership Committee Chair. Claudia Hill of Seville Construction Services, Randy Nadalo and Ashley McInerney of Aerotek, and Rick Meade of HNTB are the committee's four volunteers who help out with membership follow-up and many other items.

Three goals have been set for the 2008/2009 year, which have been approved by the board: retain membership at current level (766); continue to improve communication regarding membership issues and/or sending out reminders; and, continue outreach to those people who are non-members.

We had several meetings since our last update in December, 2008 and continue to strive to achieve our goals for 2008/2009. I would be surprised if you hadn't heard from us if your membership has already expired or is about to. If you haven't heard from us, I'm sure we will catch up to you soon! So don't forget to renew your membership! Each month we've been busy downloading updated membership lists and contacting our memberships to remind them about renewing. In addition, we've been following up on potential members and sending information as requested. We also plan on reaching out this next quarter to our corporate memberships firms to help them ensure they are using all available membership slots that come with each type of membership and updating their memberships list with current employee names. So, those of you listed as main contacts, don't be surprised if someone from our membership committee contacts you. We are just trying to make sure you are getting your full benefits from your memberships. One last small note, we have set up a CMAA membership e-mail so that you know it came from CMAA when you get our reminder notices.

We are once again proud to announce that we have not only maintained our 766 membership, but are now over 890 members strong! Again, please don't forget to renew your membership. We have some great programs ahead and you want to make sure you get the membership pricing to help out our firms in these tough economic times. We thank all of you who have renewed their memberships. This demonstrates your continued support and to those that have recently joined us, your support has allowed our chapter to continue to grow. Thanks again for your CMAA membership support!

Our local chapter continues to promote CMAA and reach-out to new members. We did not have any exhibits this past quarter but the board did approve exhibiting at the California Construction Expo (Calconexpo) downtown Los Angeles in August, 2009.

The membership committee continues to attend our local chapter seminars to provide key note speaker introductions, provide an update of upcoming events and membership benefits. We again expect that these outreach efforts and increased visibility will help contribute to us maintaining our existing membership and increasing new membership.

Kind Regards,

The Membership Committee:

Natasha DeBenon – Hill International – Committee Chair-Responsible for Non Student & Attorney Representative members

Claudia Hill – Seville Construction Services – Volunteer – Responsible for CM Representative members
