TECHEXPO2016 will be a debut event for CMAA Southern California Chapter.

TECHEXPO2016 will feature technology vendors and product demonstrations to expose you to the latest technology in managing construction projects.

Highlights of the **TECHEXPO2016** will include vendor displays so you can learn first-hand about the products. And numerous technology vendors will showcase their products and innovative technology solutions in the demonstration room.

Join your fellow industry professionals for a day of knowledge and takeaways that can be implemented in your office and jobsites. Construction Managers and Owners... **TECHEXPO2016** is for you!

WHO SHOULD ATTEND?

TECHEXPO2016 is geared to the decision-makers who determine how your company uses technology (not those that service the technology) and the end-user on the jobsite.

Instead of technical geek-speak, you will hear from vendors how the latest resources can help you remain competitive, productive and efficient.
